**Subject:** Re: DAILY OBSERVATIONS (FEB 20 (PM))

Kirk,

These are very helpful. I am guessing you already know this, but is quite a bit warmer tomorrow. Where are they putting all of the material they are pumping out of the ditch?

Also, forgive me if this is obvious, but has anyone notified farmers with cattle with access to the stream with the contaminated water in it? They will likely want to keep the cows out of the water.

Thank you for all the work your folks are doing.

Mr. Tingelhoff:

For your use and information.

Attached is my group's observations from earlier today.

Sincerely,

Kirk Morrow, P.G.
